1. This Office action is in response to the preliminary amendment filed 11/19/03.
2. Applicant is reminded that in order to avoid an abandonment of this application, the drawings must be corrected in accordance with the instructions set forth in the first Office action mailed on 3/18/03.
3. Applicant is hereby given **ONE MONTH**, or thirty days, whichever is later, from the mailing date of this letter or until the expiration of the period set in the "Notice of Allowance" (PTOL-85) or Notice of Allowability" (PTOL-37 or PTO-37), whichever is longer, to file corrected drawings. Extensions of time are not available under 37 CFR 1.136(a) or 1.136(b).
4. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
5. The following is an examiner's statement of reasons for allowance: as applicants note, none of the prior art of record fairly discloses or teaches the use of an organic polymer layer between a support layer and a catalyst layer, including when the catalyst is a metallocene. In addition, the prior art cited is not entirely analogous, since the types of catalysts and the barrier layers are not identical to those of the present invention as now claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
